

Aurora Software

Find unique value on the road to Net Zero

Aurora's integrated software suite empowers **you** to analyse power markets and assets with unprecedented sophistication and ease, helping you build an edge in the crowded market

Our software enables bespoke analysis at ease, speed and scale

The need for bespoke analysis is growing quickly:

Managing growing merchant exposure

Increasingly complex market risks

Increasingly complex assets and strategies

Ultra-competitive environment

We built our software to address this need:

Tailored analysis without lengthy procurement

Zero marginal cost—generate bespoke insights freely, wherever it can help you make smarter decisions

Instant productivity—analyse new markets and investments straight away

Cloud-based and perfect for collaboration across the whole organisation

Powerful

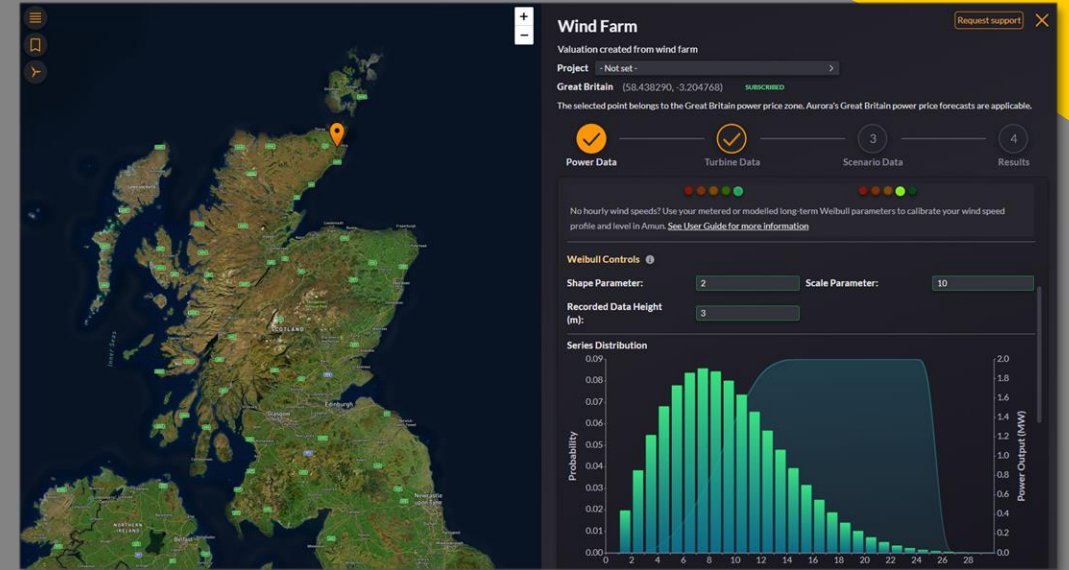

State-of-the art models and analytical tools:

Cutting-edge modelling features

Used by Aurora for our research and consulting

Relied on by lenders

Built and maintained by a team of 50+ modellers,
developers and data scientists

Accessible

Ready to use from day one:

Fully calibrated and pre-populated with data

Beautiful, intuitive, user-centric design

Virtually no training required.

Can be used by anyone within the organisation

Supported by team of Aurora experts

Cloud-based—no need for storage, updates, installations
